

座 za

The seating style of japan

Since the dawn of history, the chair wasn't indispensable for Japanese life style. It is because the Japanese had been acquiring a way to live without a chair. However, chairs are very important for the current Japanese lifestyle. Our chairs are made from Japanese traditional culture and a present Japanese lifestyle.

Furniture design Institute **Plus**

We are a team of furniture creators that are thinking about a design from the Japanese history, lifestyle and materials.
